

Picture changer manual

Hello! This is a short manual on how to use this picture changer. We won't show what the changed images will look like but we will explain what their buttons do. Feel free to discover what the buttons do while going through or after reading this manual.

- This is the start up page which shows a menu with four buttons in total which all have different functions

- The Twisted Mirror button changes the image into a nonconventional mirror image, it only mirrors half the image.

Twisted Mirror

- The Negative colors button changes the entire images pixels into its negative values.

Negative colors

- The Smaller Image buttons changes the image into a smaller version.

Smaller image

- The Original Image button does what it sounds like, it shows the image that is first shown on program start up.

Original Image
